DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: the attorney docket number should be replaced with the serial number.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1- 18 are rejected under 35 U.S.C. 102(e) as being anticipated by Dreyer et al. (Dreyer) (US 6,088,710).

With regards to claims 1-18 Dreyer either explicitly or inherently discloses all of

the claimed limitations as is evidenced by the fact that Dryer discloses producing multipage books in the form of brochure in duplex format. The books can be produced the same or differing number of forms and the same or differing pages. The books can also vary the book length and size by changing the page imposition parameters.
